Career Objective

Highly driven and passionate **Full Stack Developer** with over 7 years of hands-on experience in designing, developing, and maintaining scalable web applications**.** Passionate about delivering optimized, user-centric solutions and contributing to collaborative, high-performing teams. I seek to leverage my technical expertise and creativity in building impactful digital products that solve real-world problems.

Work Experience

August 2020 - Present

Full Stack Web Developer at WebDev200

- Delivered fully responsive, accessible, and SEO-optimized websites that outperform competitors in performance and user experience.
- Built and maintained over 8+ modern web applications across various devices using React, Next.js, Vue, Nuxt, and Laravel.
- Led the UI/UX redesign for multiple client sites, increasing conversion rates by up to 200%.
- Upgraded and optimized legacy websites, enhancing loading speed and mobile usability.
- Applied best practices in mobile-first development and accessibility (WCAG).

February 2018 – August 2020

Freelance Frontend Developer

- Transformed outdated sites into modern SPAs using Vue.js and React.
- Built pixel-perfect UIs from Photoshop and Figma mockups (PSD to HTML).
- Improved website performance and SEO across 3+ projects through optimization techniques.
- Implemented scalable, maintainable front-end architectures and efficient cross-browser compatibility.
